

WHITE PLAINS CENTER FOR NURSING CARE

The following information is posted here on our website for all visitors, families, friends of our White Plains Resident. Hopefully, this will facilitate your testing experience and allow you to visit your loved ones safely.

VISITOR TESTING REQUIREMENTS PRIOR TO VISITATION

1. Visitors are required to have a valid Covid negative test result one day prior to visitation for antigen tests and two days prior to visitation of NAAT (e.g., PCR) tests.
2. Proof of the negative test must be produced at the time of entrance to the facility
3. This facility will provide visitors with an iHealth test kit for testing to be done upon entering the facility if no test result is produced.
4. The visitor must swab themselves with the kit presented to them in front of the staff of the facility.
5. A negative test result is required to visit even for those visitors who have had Covid-19 Infections in the last 90 days.
6. All visitors must be screened at the kiosk at reception after testing, or producing their negative test and prior to their visit.

We thank you for your continued patience and support during this unprecedented time. The Facility continues to vigorously follow all CDC, CMS and NYSDOH guidelines to protect our residents and their well-being. We will continue to update our website with any additional recommendations and requirements of the NYSDOH and CMS.
